

DISAPPEARANCE LEADS TO FEARS FOR YORK

Carr Canyon Trapper Is
Missing for More Than
Three Weeks

From Carr Canyon in the Huachuca comes the report of an unexplained disappearance which may spell a tragic death. It is more than three weeks since L. C. York has been seen. There are some who think he has left the country, leaving his wife behind, but that wife and his friends do not agree to any such conclusion and fear that he has died in the mountains, it being suggested that possibly he became caught in a trap while setting one, since he was a trapper, and has perished miserably and alone.

It is now more than three weeks ago that L. C. York, a trapper, whose headquarters were Carr Canyon, went to the fort and sold some skins receiving between ten and twenty dollars. That was the last seen of him. One of his burros returned home. While his friends express uneasiness, according to accounts from those who were at the Canyon last week, no one has made any effort to search for him. The Huachuca are a wide field for such a hunt as would be necessary and it was in connection with the possibility of his having gone from the fort to his traps that the suggestion came that he might have become caught in one and unable to free himself. The theory that he has left for other parts is entertained in certain circles and meantime the disappearance remains an unexplained mystery.

ROSSLYN'S DAUGHTER BRIDE

LONDON, Feb. 13.—High society was well represented in the gathering that followed the Guards Chamel, Wellington Barracks, at the wedding this afternoon of Lady Rosabel St. Clair Erskine and David Cecil Bingham. The bride is the only daughter of the Earl of Rosslyn, who is known in America through his appearance on the stage. Her parents were divorced in 1902 and the Earl subsequently married Miss Anna Robinson an actress whose home was in Minneapolis. David Cecil Bingham, the bridegroom of today, is a son of Brigadier General Cecil Bingham, who a year ago was married to the beautiful Mrs. Samuel Sloan Channing, formerly Miss Alice Carr of Louisville, Ky.

NEW CUBAN TREATY.

WASHINGTON, Feb. 13.—Taft, it was reported today, has begun negotiations for a new treaty with Cuba. Much of the data necessary for the new pact has already been secured and it is stated several conferences have been held with the Cuban minister on the subject. The new treaty affects duties, principally on sugar.

Would oleomargarine be more popular under another name?

WATER PLENTY AND OBTAINED CHEAPLY

Possibilities of San Pedro
Valley for Gardening
Are Splendid

That water is admittedly the only requirement to make most sections of Arizona become garden spots, has become an axiom. "If we only had an artesian flow," has been frequently heard. Dry farmers have made a success in many instances by skill and perseverance without irrigation. And yet in the San Pedro valley water is easily obtainable and this fact appears to be unrecognized. A representative of The Review has recently visited the San Pedro valley and was surprised at some of the facts that he discovered as will be many readers of The Review.

The new well on the Cobb ranch adds a seventh flow for irrigation purposes and the total flow from the seven wells is estimated at 600 gallons per minute.

The Calhoun well, now being bored, is on the mesa proper and about one and a half miles from the Cobb well. The bore has gone down 200 feet and there is now a flow of 140 gallons per minute which is increasing as depth is attained.

It would appear that there is no place in Arizona where water can be more easily obtained with such good results and with such little expense. The Cobb well was bored in eighteen days and was put down for the purpose of obtaining more water for a lease of 25 acres of land which is to be used for gardening. The Review representative declares that splendid opportunities are there and that all that is required is work applied with judgment. There are seventeen quarter sections of land occupied by as many settlers than can be brought into a high state of cultivation, is the result of his observations.

SEVEN GREATEST AS SEEN BY T. A. EDISON

1. Attempt to establish a Chinese Republic.
2. Discovery by Erlich of Salvarsan for the cure of specific infectious diseases.
3. Unexpected rapidity of the construction of the Panama Canal.
4. Improvements in aerial navigation.
5. Important discoveries in surgical technique of the Rockefeller Institute.
6. Final proof of the efficiency of typhoid vaccination.
7. The rise and near perfection of the Diesel Engine.

The Diesel Engine is a gas machine built on the principle of internal combustion, and has been on the market for several months.

There is Only One "Bromo Quinine"

That is
Laxative Bromo Quinine
USED THE WORLD OVER TO CURE A COLIC IN ONE DAY.

Always remember the full name. Look
for this signature on every box. 25c.

E. W. Grove

Adolph Busch, the celebrated St. Louis brewer, millionaire and philanthropist, furnished thousands of dollars to make Dr. Diesel's invention a possibility. A vast plant is soon to be built in St. Louis to manufacture the Diesel engine. Thousands of men will be employed.

The forethought and daring initiative of Mr. Busch is now apparent. However, it took years of faith in the principle of the engine before success was assured.

Dr. Diesel's invention is a radical departure from all preceding internal combustion engine construction. Its method of operation makes the use of the lowest grade of crude oil or residual oil possible, and results in an efficiency far superior to that of the most modern steam engine.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies
the Hair. Cures Dandruff,
Stops Falling Hair

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Vyeth's Sago and Sulphur Hair Remedy. For generations common garden Sago has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty-cent bottle of Vyeth's Sago and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment.

Eastern Markets Yesterday

(By L. J. Overlock)

BOSTON, Feb. 13.—The dullness in the local market today was caused not by scarcity of buying orders, but by the lack of offerings. The bullish feeling on copper has increased during the past few days, but the majority of the traders are not yet willing to advance prices a point or two in order to get their stocks. This will come, however, with increased confidence, and we expect to see decidedly higher prices before the end of the week. At the close all classes of copper were in good demand and everything points to more activity, with advancing prices tomorrow.

Copies of the \$4.00 Dictionary may be secured from
E. D. CONGER, CANANEA, or
R. L. McCORKLE, DOUGLAS,
by presenting the coupons and expense bonus.

Are the Fly and Mosquito Dangerous?

The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles—capable of warding off these diseases. Dr. Pierce's Golden Medical Discovery is a blood medicine and alterative made entirely without alcohol, a pure glyceric extract of bloodroot, golden seal, Oregon grape root, queen's root, mandrake and stone root, which has enjoyed a good reputation for over forty years. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fire of the body burns brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes Mr. MICHAEL MAGUIRE, of National Military Home, Kansas. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back so I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take 'Golden Medical Discovery'."

Dr. Pierce's Pleasant Pellets are for liver ill.

Cut out the above coupon, with five others of consecutive dates, and present them at The Review office, with the expense bonus amount here-in set opposite any style of Dictionary selected (which covers the items of the cost of packing, express from the factory, checking, clerk hire and other necessary EXPENSE items), and receive your choice of these three books.

The \$4.00 (Like illustration in advertisement elsewhere in this issue) is bound in full Limp Leather, flexible, stamped in gold on back and sides, printed on Bible paper, with red edges and corners rounded; beautiful, strong, durable. DICTIONARY Besides the general contents as described elsewhere there are maps and over 600 subjects beautifully illustrated by three-color plates, numerous subjects by monochrome, 16 pages of valuable charts in two colors, and the late U. S. Census. Present at The Review office six consecutive Dictionary coupons and the ... Expense Bonus of \$1

The \$3.00 It is exactly the same as the \$4.00 WEBSTER'S cloth in the style of binding—Expense New Illustrated which is in half leather with Bonus of DICTIONARY olive edges and square corners. SIX Consecutive coupons and the ... 80c

Any Book by Mail, 22c Extra for Postage.

The \$2.00 It is in plain cloth binding, stamped in gold and black; has the same paper, same il-Expense New Illustrated illustrations but all of the colored plates and charts are omitted. SIX Consecutive Coupons and the ... Expense Bonus of 50c
